

Newborn Belly Size

If you came here looking to buy a Newborn Belly Size teaching tool, the Product page has been taken down because my inventory is low. Don't despair! I still have some Newborn Belly Size teaching tools in stock and would be happy to send you what you need :) Just email me at tracy@bestdoulas.com with your address. The Newborn Belly Size teaching tool costs \$11.71 with tax and shipping costs. You can make a payment to tracy@bestdoulas.com through PayPal or credit card (through PayPal) or to [tracy-hartley-2](#) through Venmo or [\\$tracyhartley](#) through the Cash app.

Soon-to-be parents are often surprised by how small the baby's stomach will be and how quickly it grows. I always like to remind them that the size of the newborn's stomach on the day of birth is equal to the amount of colostrum the baby needs. It also helps them understand why their baby needs small, frequent feedings.
